***Notes from conference call WG meeting, Saturday, March 21, 2020***

John Hanley Report - WG Member, County Medical Reserve Corps Member, CERT liaison with County Health Care Coalition, Pharmacist

- Possibility that Heath Services Support may be overwhelmed in 2-3 weeks, developing alternate sites for care (did not divulge them) where they would run 3,5, and 7 hour shifts Meeting - last Monday and plan another conference next Monday
- Now trying not to test people as it is using up PPEs. If you are showing the signs self quarantine or if symptoms get worse call Doctor
- He doesn't know how many tests we have.
- Listen to the Jimmy Paneta conference calls
  - Hospital update
  - Small business loans
  - Q&A to people on the call
- He gets the sense from MRC will be activated in 3 weeks. Cautioned that this was a wild guess based on what he was hearing. Don't repeat that. Looks like that is the target. Time will tell.
- 
- Catherine - Team Rubicon - Separate volunteer veterans international agency (Catherine Lynn Green [greencatherinelynn@gmail.com](mailto:greencatherinelynn@gmail.com) is a member) They are beginning actions tomorrow in the Bay Area.
- David Sonnenberg - Live Oak considers Active as people who attended the last two meetings
- Mary - They should take ICS 100 now so may be activated under DSW. Dawn has developed a list of active CERTs comprised of information sent to her over the last year by some Team Leaders. There are different definitions of 'active'. The broadest definition being — attended a Team Meeting in the last year, has a valid DSW badge and taken
- IS-100
  - John - Would it be possible to send the list to all of the group?
  - Mary - We promised people privacy so only a limited number of people have access.
  - Dawn - She has a list of people who attended in the last year and have an Active DSW. She hesitates to share widely but could share to those on the call.
  - Mary - the EOC will only activate people who have taken IS-100
  - Bill F - We will have a lot of spontaneous volunteers, so we might want to find out who is interested and getting them additional training. Use the active list for the

people we call first. We want to get people training when they want help.

Mary - we want to find out who we have to draw on. It's on clear what to train them for. It will play out as things advance.

Bill - lets keep reaching out to get names. We want to be inclusive as possible.

Training them in safety in Pandemic conditions. Ask EOC what training they think they might want.

Catherine - Want to be clear on how we will get activated. Will it come from Auxiliary county level or team by team. Activation would come from EOC and then go through team leaders. If it was a very big emergency we should attempt to communicate with team leaders but it may not happen. The notice would come from EOC - Mary and Catherine.

Mary - Clarified that sharing the list would be just their team to their team leaders but we do have the master list if we need it.

David Live Oak - We need to use the chain of command.

Doreen - We need sign in lists entered on our list. People need to keep track of their own training for recertification. Team leaders need to keep track of who attends meetings so we know who is active.

Joyce - everyone remember to stay close to your friends and neighbors.

Mary - We will meet again next Saturday at 10:10 for update. Will send out email to WG.

My thanks to David Sonnenberg and Doreen O'Donovan for taking notes on this call. The bullet errors are mine.

Stay safe,

~Mary
