Santa Cruz County CERT Auxiliary
Notes on the April 11, 2020 meeting
Scribe: David Sonnenberg-Meeting held on ZOOM

Meeting members introduction -- twenty-three in attendance

ANNOUNCEMENTS
County office of OES requests tracking number of hours spent on COVID-19 tasks.
FEMA compensates County for a percentage of all volunteer hours. Will be reporting on
a monthly basis. Send hours accounting for April (and March) at the end of April to
certauxiliary@gmail.com Catherine Lynn Green suggested using form 214 activity Log.

Request Team Leaders (TL) try and follow Map Your Neighborhood activity-- where are
they located possibly mapped. It was suggested that TL refer to the sign in sheets
where the training was given and follow up. Bonny Doon and Boulder Creek Teams
have been active.

State has asked that if CERT was willing to make contacts with people in the hot zone.
Sent State info on willingness to help. No report back from State yet.

City of SC is making masks for firefighters, so is a local group the for county OES. Need
to improve coordination among those who are trying to help.

California Specialized Training Institute (CSTI) will be running classes related to COVID,
information attached.

UPDATE FROM COMMAND STAFF
    Planning-Working on sending out incident briefings, reviewed objectives in plan

    Logistics-assessing responses from teams to come up with the total number of
    members available for call out.

    Operations- Planning team leader meeting, proposed meeting 4/18/2020

    Safety- Still ongoing interest in hydroxychloroquine, joint statement by Lancet
    saying that there is no evidence that it works, and is actually dangerous if there is
    heart complications. Only effective for palliative care (in a hospital environment).
    Because danger with of heart complications, an ECG should be taken before
    prescribing the drug. When talking with others, refer to CDC website. Also
    deprives others of Malaria treatment.

    Pharmacists are now authorized to do COVID-19 testing, subject to availability of
    tests.

PIO- no report

PARTICIPATION LEVELS
Team leaders should report back to 2015 if possible in 3 levels. See document at end of these minutes.

TEAM LEADER REPORTS/BACKUP Doreen Donovan will substitute if Mary becomes ill during COVID-19 incident. Team leaders should develop a succession plan for their team.

TEAM LEADER REPORTS
--David Dean, **Live Oak**- Mailing List is up. First virtual meeting held. Next meeting s
--John Collins, **Scott's Valley**-Has Communication (Ham) contact
--Liz Taylor Selling, **Felton Area**- Had successful virtual call out. Meeting went well with assist from Fire Dept. contact. Zoom worked well. Provided traffic serviced as MCR volunteers, were able to provide this because of CERT training.
Catherine L. Green, **City of SC** Got communication contact, Paul Horvath Emergency Coordinator for city requested making masks for SCFD.
--Jerry Parsons, **Las Cumbres**, -Proposal to HOA to install radio antennae on common building
--Dick Lovelace , **Paradise Park**- No Fire Brigade. Table top exercises, monthly meetings, traffic management when emergencyvehicles enter.
--Dawn Mackey, **Bonny Doon** -has lots of help. Virtual meeting planned. MYN is planned.
--Ed Spurr, **Capitola**- Virtual meeting is planned, distributing masks and gloves to team members
--Jamshid Kiani, **Red Cross**- assisting the county, helping to place homeless in hotels. Named in-kind gifts coordinator for west coast. Reporting out on EOC meetings. Blood drive services, available at Red Cross building but must make appointment. Filled through May 2.
--Bill Monroe, **Boulder Creek-** Had Zoom meeting, a turnout of 10. Talked about masks

Would be useful to have a calendar of other teams' virtual meeting, as well as updates on Team contacts that are listed on the website. Send info and updates to Ken Braly at Ken@kenb.com

ADDITIONS

COMMUNICATIONS: Liz Taylor Selling has had responses for about ½ of the team leaders about who their Communication contacts are. Requested other TL, please send contact information for representatives, phone numbers, and e-mail addresses ASAP. Send to Liz at lizatslven@gmail.com Want to be ready if there are power shut offs later this year -- essentially there will be no electricity. Will need the network establish by then.

CERT activity in California, SF is doing logistical support and currently has a pool of 10,000 NERTs (Neighborhood Emergency Response Team) 3,000 trained the last 2 years. San Diego CERT has also done food delivery and helping with coronavirus testing. We are improving our organization and it will help us in the future. Some CERTS are volunteering individually with different organizations.

For food insecure people over 60 years of age, free Meals on Wheels is available.

NEXT MEETING- MAY 9, 10AM-12OON

Please scroll down

CERT Participation Levels

Level 1 – Trained (for reporting purposes classified at 1)

These are CERT Basic Training Course participants who took the course to gain information so they may help the family, friends and possibly neighbors.

They may identify themselves as CERT trained, but not as CERT Team members*. They elected not to have a DSW badge, may have one, or one that is expired for nonparticipation.*

NO requirements but strongly suggest
- Complete at least 25 hours of continuing education over 5 years
- Connection with area Team Leader

Level 2 – Team (for reporting purposes classified at 2)

CERT Team member

Mandatory
- Be sworn in as a Disaster Service Worker (DSW)
- Join a CERT Team within Santa Cruz County
- Complete the following online courses (training.fema.gov/is/)
    - IS100c -- Basic Incident Command System
    - Attend drills, meetings, exercises based on Branch requirements
    - Complete at least 25 hours of continuing education over 5 years
    - Suggested:
        - § IS200b -- ICS for Single Resource and Initial Actions Incidents
        - § IS700b – Introduction to the National Incident Management System (NIMS)

They are considered CERT Team members*. They have a current DSW badge.*

Level 3 – Leadership (for reporting purposes classified at 3)

Assume a leadership position and/or complete additional training

Mandatory
> All CERT Level 2 requirements

Optional (examples)
- Leadership meetings, training classes, and exercises
- CPR/First Aid/AED class
- Shelter Fundamentals and Shelter Simulation (American Red Cross)
- CERT Animal Response I and II
- Communications (Classroom)
- Traffic Safety Management (Classroom)
- Head-to-Toe Examination Review (Classroom)

TRAINING INFORMATION BULLETIN
Governor's Office of Emergency Services

California Specialized Training Institute (CSTI)
Training Opportunities

Monthly Training Update/Summary	April 2020	**UPDATED**	Bulletin No. 04-2020

A note to our statewide training partners from CalOES during this difficult time. The safety, security, and well-being of students and staff is our number one priority at California Specialized Training Institute (CSTI). As the State continues to address concerns surrounding the Novel Coronavirus (COVID-19), we are closely following events and public health recommendations surrounding the outbreak and spread of COVID-19.
In order to prevent the spread of illness and to follow the Governor's orders and public health directives and recommendations, CSTI will continue to postpone (cancel) all CSTI team activities and classes for the initial period of March 16 through June 1, 2020.

State Training Officer: Kelly Rogers, 916-826-8117, Email: **training@caloes.ca.gov**

California Specialized Training Institute: CSTI

	Camp San Luis Obispo Cal OES/CSTI 10 Sonoma Avenue Building 904 San Luis Obispo, CA 93405	**CSTI Student and Administrative Services, General Line:** 805-594-2100

CSTI Training Courses

California Specialized Training Institute Cancels Classes Due To COVID-19:
All Californians are aware by now of the growing threat posed by the novel Coronavirus known as COVID-19. In recent days, many local jurisdictions have proclaimed local states of emergency and/or public health emergencies and on March 4, Governor Gavin Newsom proclaimed a State of Emergency for California. On March 12, the Governor issued Executive Order N-25-20, which, among other measures, directs citizens and agencies to observe the social distancing guidance issued by the California Department of Health on March 11, specifically as to gatherings and meetings. The intent of these measures is to slow the spread of the virus by limiting people's exposure to infected individuals.

To our Clients:
We will be happy to reschedule your program at a later date. Please continue to coordinate with your assigned course manager at CSTI.

To our Students:
If you were accepted into a class that has been cancelled, we will do our best to secure an acceptable slot for you in a future class. Please monitor available course offerings via your Learning Management System access or contact one of our registrars at CSTIRegistration@caloes.ca.gov

Online Course

Coronavirus: COVID-19: Coronaviruses aren't new to us. There are different types that can present with respiratory or gastrointestinal symptoms. The 2019 Novel Coronavirus was first discovered in a group of pneumonia patients who also had contact with a seafood and live animal market. Sometimes these diseases can spread from animals to humans in what the medical community calls a "spillover." We don't yet know the origin of the 2019 Novel Coronavirus, or exactly how it's transmitted, but we're quickly gathering information on transmission and symptoms, which we'll provide in this program. We'll also discuss ways to prevent infection.

For the latest guidance, Centers for Disease Control (CDC) and Prevention, state or local health department websites are recommended.
CDC: https://www.cdc.gov/coronavirus/2019-ncov/index.html
CDPH: https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/ncov2019.aspx

Coronavirus Precautions and Prevention: Common Sense Hygiene: You've heard of COVID-19, or the coronavirus, and its rapid spread around the globe. Perhaps one of the first things that came to mind was, "How do I prevent myself and my family from getting the virus?" This program compiles expert advice on how to prevent the spread of coronavirus and keep yourself and loved ones healthy.

Coronavirus Precautions and Prevention: Coronavirus Preparedness: The emergence and spread of COVID-19, or the coronavirus, is a worldwide concern. If you're not under quarantine, there's a chance you could be at some point. So, it's important to start collecting items for a coronavirus preparedness kit. This is just like any other emergency kit you might have, like one for a major earthquake in your area or getting stuck in a blizzard in your car. It's a way to be prepared ahead of time, before there's a run on supplies.

Coronavirus Precautions and Prevention: Stay Calm, Stay Informed: There's a lot of information out there that might make you anxious about a coronavirus pandemic. But while it's important to be prepared and prevent the virus's spread as much as possible, it's also important to keep some perspective. There have been far deadlier viruses that have spread more widely throughout human history, and with the benefit of modern science and medicine, we will do much better than in the past. In this course, we'll talk through what exactly we know about the virus and any treatment options currently being developed.

Coronavirus Precautions and Prevention: Travel Safely: The coronavirus, COVID-19, spreads more easily the more people are grouped together, so you can imagine how busy airports, city buses, and subways pose the greatest risk of infection. The virus is capable of spreading very quickly, and has reached several thousand confirmed cases, most notably in places like Italy, Iran, South Korea, and China. The effects vary from person to person, but of course, you should take every precaution to avoid infection. With all that in mind, let's talk about travel. In this program, we'll discuss when to cancel travel plans, proper travel hygiene, and what to do if there's a quarantine.

G-606 Standardized Emergency Management System (SEMS) Introductory Course:
This course provides a comprehensive discussion of the components of SEMS and how SEMS is used in California. Content includes mutual aid, multi-agency coordination, the operational area concept, and how the five levels of government communicate, interact, and share resources.
To register: CSTI LMS Course Registration

Materials Based Training

CSTI Finance & Admin Training:
This course is designed at the Awareness Level and is structured to introduce Basic EOC Finance Section concepts. Further course work, to include more operational level Finance Section planning and hands-on training, along with both exercise and event opportunities to validate that training are all HIGHLY recommended.

CSTI Logistics Training:
This course is designed at the Awareness Level and is structured to introduce basic EOC Logistics Section concepts. Further course work, to include more operational level planning and hands-on training, along with both exercise and event opportunities to validate that training, are all HIGHLY recommended.

CSTI Management Training:
This course is designed at the Awareness Level and is structured to introduce basic EOC Management Section concepts. Further course work, to include more operational level planning and hands-on training, along with both exercise and event opportunities to validate that training, are all HIGHLY recommended.

CSTI Operations Training:
This course is designed at the Awareness Level and is structured to introduce basic EOC Operations Section concepts. Further course work, to include more operational level planning and hands-on training, along with both exercise and event opportunities to validate that training, are all HIGHLY recommended.

Note: New additions are bolded/italics and *GREEN*

CSTI Planning & Intel Training:
This course is designed at the Awareness Level and is structured to introduce basic EOC Planning & Intelligence Section concepts. Further course work, to include more operational level planning and hands-on training, along with both exercise and event opportunities to validate that training, are all HIGHLY recommended.
To register: CSTI LMS Course Registration

World Health Organization: https://www.who.int/

	Coronavirus Disease (COVID-19) Training: **Online Training**	**To register for online training:** https://www.who.int/emergencies/diseases/novel-coronavirus-2019/training/online-training

Online Course

Severe Acute Respiratory Infection (SARI) Treatment Facility Design: The SARI Facilities training package has been developed to meet the operational needs emerging with the COVID-19 pandemic. It provides a thorough understanding of the principles driving the design process of COVID-19 screening areas for health care facilities, community facilities and SARI treatment centres, including how to repurpose an existing building into a SARI treatment centre.

COVID-19: Operational Planning Guidelines and COVID-19 Partners Platform to support country preparedness and response: In order to assist UN country teams in scaling up country preparedness and response to COVID-19, WHO has developed these learning modules as a companion to the Operational Planning Guidelines to Support Country Preparedness and Response.

Infection Prevention and Control (IPC) for novel coronavirus (COVID-19): This course provides information on what facilities should be doing to be prepared to respond to a case of an emerging respiratory virus such as the novel coronavirus, how to identify a case once it occurs, and how to properly implement IPC measures to ensure there is no further transmission to HCW or to other patients and others in the healthcare facility.

Introduction to emerging respiratory viruses, including novel coronavirus: Coronaviruses are a large family of viruses that are known to cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome (MERS) and Severe Acute Respiratory Syndrome (SARS).

Health and safety briefing for respiratory diseases – ePROTECT: This course provides a general introduction to Acute Respiratory Infections (ARIs) and basic hygiene measures to protect against infection.

SERTC Training Courses

Security and Emergency Response Training Center, Pueblo, CO.	Updated: March 23, 2020

The safety, security, and well-being of SERTC students and staff members is our number one priority.

In order to help mitigate the spread of the COVID-19 virus and in following guidance by the CDC regarding social distancing, Security and Emergency Response Training Center (SERTC) is suspending all residential and remote delivery courses scheduled the weeks of: March 23rd, March 30th, April 6th, and April 13th, 2020. SERTC will work to reschedule affected training as quickly as possible and provide additional information as it becomes available. SERTC will contact affected students about re-scheduling training. Please follow

SERTC online at www.SERTC.org for additional information and updates.

Online Course

Foam Application for Hazardous Materials Response:
This program presents information about firefighting foams and their use in responses to incidents involving hazardous materials, flammable liquid fires and spills.
To register: https://sertc.configio.com/pd/952/sertc-foam-application-for-hazardous-materials-response

Note: Registration will close 2 business days prior to the scheduled start date

VILT Awareness Courses

AWR-333 Improvised Explosive Device Construction and Classification (IED-CC)
Provides foundational knowledge on the construction and classification of IEDs. **[75 Min]**

AWR-334 Introduction to the Terrorist Attack Cycle (ITAC)
Introduces a model of the terrorist attack cycle that describes the nature of terrorist surveillance, target selection, planning and other activities that occur before and immediately after an attack. **[105 Min]**

Note: New additions are bolded/italics and *GREEN*

AWR-335 Response to Suspicious Behaviors and Items (RSBI)
Introduces the learner to the difference between normal and suspicious behaviors, physical characteristics that are not easily changeable and those that are, and the difference between unattended and suspicious items. Provides strategies and resources for responding to and reporting suspicious activities. **[75 Min]**
AWR-337 Improvised Explosive Device Explosive Effects Mitigation (IED-EEM)
Provide introductions to fundamentals of explosives effects. Details the difference between blast, thermal/incendiary, and fragmentation effects and describes the destructive consequences of each type of effect on a target. **[75 Min]**
AWR-338 Homemade Explosives Awareness and Precursor Awareness (HME-P)
Provides foundational knowledge on HMEs and common precursor materials used to build IEDs. **[75 Min]**
AWR-340 Protective Measures Awareness (PMA)
Provides an overview of the risk management process, surveillance detection and the development of appropriate protective measures on facility characteristics. **[75 Min]**

NCBRT Training Courses
Please be advised that NCBRT has suspended mobile training throughout the end of April. I apologize for any inconvenience this may cause. If you would like to reschedule any training that was set to be delivered in your state, please let me know at your earliest convenience. We will continue to monitor training in May as this continues to play out.
Online Course
AWR-304-W Shopping Center Security Terrorism Awareness Training Program:
This course provides security training personnel with increased awareness of the various facets of terrorism and criminal activity that could occur at a retail facility. During this course participants will examine weapons that may be used in a terror attack and will be able to describe various attack tactics that may be used against a retail facility. Participants will also be able to assess potentially suspicious behavior and will be able to conduct surveillance at their facility. The course describes proper response to terrorist or criminal incidents. To register for online courses, visit https://elearnreg.ncbrt.lsu.edu/. Already registered for a web-based course? Note: New additions are bolded/italics and *GREEN*

CDP Training Courses
Please refer to the training providers website or contact the POC for status of all training.
The Center for Domestic Preparedness (CDP) is committed to having an emergency response community prepared for and capable of responding to all-hazards events. FEMA/CDP continues to monitor the guidance of the Centers for Disease Control and Prevention. COVID-19 message can be found here: https://training.fema.gov/info.aspx
Online Courses
AWR-341 W IED Awareness and Security Procedures:
The Improvised Explosive Device (IED) Awareness and Security Procedures course is designed to provide foundational knowledge about IEDs and proper safety precautions and procedures for reacting and responding to unattended and suspicious items.
AWR-349 HME and Precursor Awareness for Public Safety:
The Homemade Explosives (HME) and Precursor Awareness course provides participants with a foundational understanding of HME and common precursor materials. Participants will define HME, explore the considerations involved in a decision by perpetrators to use HME as the explosive for an attack, and will learn to identify common precursor chemicals and materials used to make HME.
AWR-358 dL Hazardous Materials Awareness Distance Learning:
The course provides training to proficiency in identifying hazardous, utilizing the U.S. Department of Transportation's *Emergency Response Guidebook* to identify hazardous materials risks and protective actions, utilizing hazard communication documents to identify hazardous materials risks protective actions, and determining awareness-level personal and public protective actions.
AWR-358-dL-R Hazardous Materials Awareness Refresher:
The course provides training to proficiency in identifying hazardous, utilizing the U.S. Department of Transportation's *Emergency Response Guidebook* to identify hazardous materials risks and protective actions, utilizing hazard communication documents to identify hazardous materials risks protective actions, and determining awareness-level personal and public protective actions.
AWR-903 Bomb Threat Preparedness and Response:
The Bomb Threat Preparedness and Response course is an online independent study training. It uses interactive exercises and case histories of what actually happened during bombing incidents to familiarize participants with the steps necessary to prepare for and respond to a bomb threat.
AWR-921 Bomb-Making Materials Awareness Employee Training:
The Bomb-Making Materials Awareness Employee Training course is an online independent study training. It teaches participants how to recognize suspicious purchasing behaviors in a retail setting that might indicate Bomb-Making activity and what to do when a suspicious incident occurs.
AWR-922 W Environmental Health Training in Emergency Response Awareness Course:
course provides students with an introduction to the special circumstances environmental health responders may face and tasks they may perform during emergency preparedness for, response to, and recovery from disasters.

Rural Domestic Preparedness Consortium RDPC

	POC: Michael Crowhurst 606-677-6175 **lori.ard@centertech.com**

RDPC Training Courses
Please refer to the training providers website or contact the POC for status of all in-State training.
Online Courses
Online courses from the RDPC are a perfect fit for those struggling to work training into their busy schedule. All online training is self-paced and offered at no cost. Browse our catalog of online course below and enroll today.
To begin, login to the RDPC Online Training Center using your FEMA Student ID.
AWR-187-W Terrorism and WMD Awareness in the Workplace 2019:
This 30-minute, Web-based "Terrorism 101" course prepares learners to successfully recognize, report, and react to potential terrorist incidents. In the first two lessons, learners develop a broad understanding of terrorism, including a definition of terrorism as well as examples of terrorist groups and targets.
MGT-433-W Isolation and Quarantine for Rural Communities:
provide individuals with the general knowledge necessary to begin planning for situations requiring the isolation and/or quarantine (I&Q) of a large portion of local, rural populations. This self-paced, web-based course will educate learners on I&Q in a modern context, discuss legal and ethical issues associated with I&Q, and present preparedness, planning, response, and support considerations. In addition, Isolation and Quarantine for Rural Communities will address communication strategies as well as I&Q resources.
AWR-328-WBT All Hazards Preparedness for Animals in Disasters:
This is the web-based portion of AWR-328 All Hazards Preparedness for Animals in Disasters, to be completed prior to attending the instructor-led delivery.
MGT-335-W Event Security Planning for Public Safety Professionals:
This self-paced, Web-based course is designed to provide planning and management-level skills to officers from state and local law enforcement agencies. Participants will be provided with the essential skills and knowledge to understand the importance of and the need for planning and managing security for special events, and to identify guiding principles for special-events security.
AWR-209-W Dealing with the Media: A Short Course for Rural First Responders:
Adapted from FEMA's IG-290 curriculum, this 6-hour course provides rural first responders with skills needed to communicate with the public through the media. Examines roles of the media and the rural first responder/public information officer. Participants learn how to give print/electronic media interviews, write news releases, provide information at the scene, and how they fit into the joint information system.
AWR-148-W Crisis Management for School-Based Incidents: Partnering Rural Law Enforcement, First Responders, and Local School Systems:
This self-paced, Web-based course will educate rural law enforcement personnel as well as school administrators, teachers and staff to effectively respond to an emergency in a K-12 environment. The training will provide representatives of rural law enforcement departments and school systems with a foundation of knowledge and skills that will enable them to progressively establish a school-based emergency response plan and crisis management team through information-sharing and training.

STAS: Prevention through detection and deterrence is the cornerstone of California's Homeland Security strategy. Prevention has at its core cooperation; sharing between agencies and across the full range of public safety disciplines.	Our state prevention strategy (State Threat Assessment System-STAS) has four Regional Threat Assessment Centers (RTACs) collocated with the four FBI Field offices in California, minimizing reporting conflicts, providing statewide coverage and facilitating coordination with our Federal partners.	The RTACs maintain a regional threat assessment focus for their area of responsibility and directly connect to each other and the State Terrorism Assessment Center in Sacramento to collaborate on strategic products and situational awareness.

Reasonable accommodations for people with disabilities are available upon request. Please make your request as early as possible, as last-minute requests will be accepted, but may be impossible to fill. For all requests, contact the POC for the particular course offering.
