

Dear Parents:

You have an important role in teaching children about fire safety. This activity book gives children valuable fire safety and prevention tips. To help your child become more aware of the information in this book, we encourage you to talk to them about fire safety and prevention. The tips below will help you:

- Make sure you have working smoke alarms on every level of your home. Put them inside bedrooms and outside sleeping areas.
- Test your alarms each month.
- Change batteries each year if you need to.
- Change your smoke alarms after 10 years.
- Make a family escape plan.
- Practice your plan at least twice a year.

If you would like more information about how you can be more prepared for disasters and/or get involved in our local mountain community by becoming a Community Emergency Response Team member or a Volunteer Firefighter, please contact the Loma Prieta CERT Leader at LPCERT.teamlead@gmail.com

Let's Have Fun With Fire Safety

Welcome to the U.S. Fire Administration's Activity Book, where fire safety and fun start!

You should learn this information so you can tell someone if you have an emergency. Fill in the blanks below.

Name: _____

Age: _____

Address: _____

Phone number: _____

Fire department: _____

Emergency number: _____

About Fire

Fire is fast!

A small flame can become big quickly. It only takes a few minutes for smoke to fill your house.

Fire is hot!

The temperature in a fire can be very hot.

Fire is dark!

When a fire starts, it is bright. But the smoke will make a room very dark. You may not be able to see.

Fire is deadly!

Smoke is poisonous and can hurt you.

I Spy the Smoke Alarm

Can you find the smoke alarm?

Smoke alarms should be inside each bedroom and outside sleeping areas. Put them on the ceiling or up high on the wall.

What to do if You Hear a Smoke Alarm Sound

Follow these steps when you hear a smoke alarm sound:

- If there is smoke, get low and go to your exit.

- Go to your family's outside meeting place.

- Call the fire department.

- Stay outside. Once you are outside, do not go back inside unless a firefighter says it is okay.

Remember to follow these same steps when you are sleeping over at a friend's house or staying with your grandparents.

Find Two Ways Out

You should know two ways out of every room and two ways out of your house. Can you find two ways out of these rooms?

Firefighter Gear

Firefighters need special clothing and equipment to keep them safe from flames and smoke.

Choose an Outside Meeting Place

Your meeting place should be outside your home where firefighters can see you.

A good outside meeting place is far enough from your home to be safe, and it stays in one location. Circle the good choices for an outside meeting place below, and put an "X" over the bad choices.

Never Touch Matches, Lighters or Candles

If you find matches, lighters or candles, tell an adult.

If you get burned:

- Put the burn under cool water for three to five minutes.
- Tell an adult about your burn.
- If the burn is bigger than your palm, you should go to the doctor.

Kitchen Safety

Stay fire safe in the kitchen!

- Stay 3 feet away from the stove or oven.

- Don't put anything that can burn on the stove.

- If you are allowed to use the microwave, remember that the microwave and food inside can get very hot.
- Let the food cool in the microwave after it cooks.
- Remove food slowly so it doesn't spill on you.

Find Two Ways Out Coloring Math

Directions: Solve the math problems, and use the color key to color each item in the room according to its number.

Can you find two ways out of this room?
(Hint: They should be colored in green!)

Color Key

2 = red

5 = purple

3 = green

6 = orange

4 = yellow

7 = blue

Let's Review

Fires burn fast and hot, and smoke can make a room very dark.

Remember:

- Know two ways out of every room in your house.
- Practice getting out with a grown-up.
- Stay low, and get to your exit if your smoke alarm sounds and you see smoke.
- Before you open a door, feel it. If it is hot, use your other exit.
- Go to your outside meeting place.
- Call 911 or your emergency number from a cellphone or a neighbor's house phone.
- Stay outside. Do not go back in the house for anything.
